Subject:	Error when trying to run rake		
Description:	<p>Hi</p> <p>I get an error when i try run rake db:create or migrate. the error is this:</p> <pre>##### ##### Onyx Gallery ##### ##### rake aborted! undefined method `map' for nil:NilClass /var/www/rails/rails/onyx/Rakefile:16</pre> <p>I did some googling which said it may be the rails version in config/environment.rb which didnt help.</p> <p>I would love to try onyx but i cant get it to work. Can you help?</p> <p>Grant</p>
